

Training for Industry

The STA provides independent and impartial training to meet the needs of its members on a variety of topics relating to emission monitoring.

This course is designed to provide training to assist the progression from MCERTS Level 1 to Level 2.

Course Content

- Responsibilities of a Level 2
- Health and safety review
- Virtual site visit
 - Site specific protocol
 - Risk assessment
 - Report preparation
- Measurement uncertainty
- Selection of methods and equipment
- Pollution abatement techniques
- Types of industrial process

Who should attend

Personnel who have reached Mcerts Level 1 and are in the process of training to become a Level 2 Team Leader.

Course duration: 3 days

The Cost

For prices go to the STA website or use the link below:

<http://www.s-t-a.org/training>

As the STA is a non-profit making organisation and therefore all courses are run at cost to the membership.

COURSES CAN BE HELD ON-SITE - contact Samantha for details.

MCERTS Level 2 - Team
